

**Inside the world you are**  
lyrics and music by Angela Kempe

Ab Fm Db Eb verse  
Fm Db Ab Eb (Ab) chorus

I poke my head down into the dark hole your from  
You're so far away but I can see you bang your drum  
You're so strange to see, a creature from a different world  
And I have come to stay a while and visit you Victorian style

You don't recognize that we were friends a time before  
I thought you were quite strange but certainly you weren't a bore  
The way you look at me, do you expect an alien  
I am the girl you placed a crown when I came in from out of town

CHORUS

You're not so distant, I can see  
- you in the looking glass  
Caught inside an hour glass  
You're not so distant, close to me  
When your nearby or far  
I'll visit you inside the world you are

Let's put our baggage down, you your drum and me my frown  
Swing and wiggle all around, you try to dance, I try to clown  
Maybe we can be, a frolicking disastery  
And then we'll tumble to our knees and kiss a little as we please

But you stand there with blank expression in your eyes  
And we don't know which world is truth and which are lies  
I'll climb into your hole and then we'll turn right upside down  
And maybe things won't look affright and inside out will turn the night

CHORUS

You're not so distant, I can see  
- you in the looking glass  
Caught inside an hour glass  
You're not so distant, close to me  
When your nearby or far  
I'll visit you inside the world you are
