

Snow Day

words and music by Angela Kempe

Looks like snow fell while we were
sleeping
And school's been canceled once again
Those old tree limbs out the window
are sighing and creaking near the glen

Let's stay in bed, drink hot cocoa,
Pull the sheets up to our neck
We'll flirt under the covers
Before the kids start to suspect

It's a **snow day**

And it's time to remember
God's glory has more power
than our worries this December
Now I'll take a moment to sit back
And look out at his wonder
I thank the Lord when I pray
For this **snow day**

We'll all get dressed and go outside
And play some in the snow
Help the kids build up a snowman
We'll be cold from head to toe

Then I'll watch you from the porch
while you'll shovel up the sidewalk
Till it's time to come inside
Cuddle on the couch and talk

It's a **snow day**

And it's time to remember
God's glory has more power
than our worries this December
Now I'll take a moment to sit back
And look out at his wonder
I thank the Lord when I pray
For this **snow day-**
